

Product Discontinuation Notice - 361R Series, 22mm Diameter

Date: January 9, 2009

To: Sales Representatives, Distributors, Regional Sales Managers

We have evaluated our 22mm diameter and determined that there is no longer a customer demand for this size.

The case sizes that are involved include: HG, HH, and HK.

As there is not an existing customer base, we will not offer a last time buy. This will be the only notification to CDE Sales and our franchised distributors.

These parts will be removed from the website.
