

Product Change Notification

August 13, 2024

PCN for MC and MCH Series

Effective Date: Changeover will begin in February 2025 and new materials will be phased in as current raw material stock runs out.

Description of Change:

This PCN is issued as notification of a change in material in some of CDE's Multilayer RF capacitors. The side resist and marking colors used in some of these capacitors will be changed. These changes will not change form, fit, or function of affected parts.

Affected Products:

- MC series with the rated voltage of 100 and 500 VDC – marking colors will change from red to white
- MC12 series with the rated voltage of 1,000 VDC – marking colors will change from white to red
- MCH series- side resist colors will change from brown to green.

Classification of Change: Material/Color Change
